

NHANES 1999-2000 Data Release June 2002 File List

This document contains the information on the files that are part of the June 2002 NHANES 1999-2000 data release. The data files have been formatted in the SAS transport file format and have been separated into individual files to facilitate faster access over the Internet. Below is a set of tables describing all of the files in this release. To understand the column headings in these tables please review the following definitions:

- Contents: a short description of the contents of a file
- Release date: date the file was released to the public on the Internet.
- FTP file: name of the file on the CDC FTP server that can be downloaded to your machine. Please note that in many cases this file is a self-extracting zip file. These files have a '.exe' as the file extension. The zip files contain a SAS transport file, codebook and documentation related to the dataset of interest.
- Data File: name of the SAS transport file containing the actual data.
- Codebook file: the name of the file containing item names, descriptions, question text, response categories, valid values and other information.
- Documentation file: the name of the containing the complete documentation on the relevant exam component, laboratory tests, or questionnaire section.
